

## Private/Semi-Private Schedule Options

- ★ The academic and pool sessions can be conducted in as little as two days OR during as many days necessary based on your schedule. You and your instructor will work together to decide on the best schedule that works for you.
- ★ The open water dives take at least two days to complete, but these days do not have to be consecutive.
- ★ The location of the open water dives varies based on weather, boat availability, and your personal preference. Keep in mind open water entry fees/expenses will vary and are not included in the course fee. The locations we visit most often include:
  - Blue Grotto and/or Devils Den: Natural springs located in Williston, FL (Typically day 1 dives are conducted here)
  - A local dive boat charter, where you will dive on an artificial reef in the Gulf of Mexico.
  - Boynton Beach FL, where you will dive on the east coast in the Atlantic Ocean.
  - Key Largo, FL where you will dive on the beautiful coral reefs just off the coast of Florida Keys.

### 4-Day Open Water Option

\*The course takes at least 4 days to complete, the table below is a tentative schedule.

Day	Time	Activity	Location
Day 1 AM	Morning (4 hours)	Open Water & Nitrox Academics	Dive Shop Classroom
